The Kingdom is here, now, for you.

The first three centuries, Christianity was nothing like today's version. They were a functioning Commonwealth Kingdom with a King. Everything was shared, unlike our system of private ownership that has permeated our planet since the American Revolution of 1776. That Kingdom is still available to you, today.

Entrance into the Kingdom of God requires:

- A Change in Citizenship
- A Change in Governments
- A Change in Allegiance
- A Change in Ownership

Anything less is not acceptable. The difference is so profound, early Christians were willing to die for it.
